

## Mala mreža škola

Jedna od početnih ideja našeg Projekta našla je svoju realizaciju u razgranatoj mreži škola, tzv. klasterima. Surađujući s dvjema bliskim školama, širimo ideje i implementiramo projektne rezultate. Na mobilnostima učitelje u Bistriti (Rumunjska) predstavili smo aktivnosti naših klastera – Osnovne škole Opuzen i Osnovne škole fra Ante Gnječa Staševica.

The image consists of two parts. On the left is a logo for "Smart waste management for smarter cluster schools". It features a circular design with a recycling symbol in the center, surrounded by stylized leaves in blue, green, and yellow. Above the circle, the letters "SMS" are written in a bold, sans-serif font, flanked by small red and yellow stars. Below the logo, the full name "Smart waste management for smarter cluster schools" is written in a smaller, regular black font. On the right is a booklet cover with a dark green background. The title "SMART WASTE MANAGEMENT FOR SMARTER CLUSTER SCHOOLS" is printed in large, white, bold, uppercase letters. At the bottom of the cover, there is a small white rectangular box containing the European Union flag and the text "Co-funded by the Erasmus+ Programme of the European Union".

2. WORKSHOP

Waste collection service in my school

WHICH TYPE OF WASTE?  
WHEN?  
WHERE?  
HOW?  
WHY?

A large pyramid divided into seven horizontal sections, each containing a piece of advice in Croatian:

- KUPI NOVO.
- KUPI RABLIJENO.
- IZRADI SAM.
- MUENJAJ S DRUGIMA.
- POSUDI STVARI.
- PUPRAVI STVARI.
- ČUVAJ ONO ŠTO IMAŠ.
- ISKORISTI ONO ŠTO IMAŠ.

A screenshot of a video conference interface showing several participants in small video frames. The names visible are Roko Pavlović, Žana Ovorot, Iva Senta, Nedjela, ganimGante, and Luka.

Co-funded by the  
Erasmus+ Programme  
of the European Union

collection service in my school"

### ŠTO MOŽEMO RECIKLIRATI?

- ▶ PAPIR
- ▶ PLASTIKA???
- ▶ METAL
- ▶ STAKLO
- ▶ TEKSTIL?
- ▶ DRVO?

### DID YOU KNOW?

It is almost impossible to  
recycle these items ↴

# ŠTO JE OTPAD?

► SVAKA TVAR ILI PREDMET KOJE POSJEDNIK ODBACUJE, NAMJERAVA ILI MORA ODBACITI

► KOJU VRSTU OTPADA NAJVIŠE PROIZVODIMO U ŠKOLI?

## Primary school Opuzen

Class waste are tissues, chewing gums, lollipops...

We can also put smart bins in classes and that way track which students create most waste and which create least waste and reward those who make least waste.

Class waste

School waste

Recess waste is the most critical part of the School waste because the most waste is created during recess tin foil, paper towels, plastic bottles and much more.

Waste

We can use tablets for tests instead of paper

How can we reduce waste?

Measuring waste

We can throw trash into a smart trash can using class id cards [name card as student id card for class bin] we can track which class is making most and which is making the least waste.
